

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

March 25, 2004      LB 559

going to kind of give you a brief overview of this bill. It's been around since last year, obviously introduced. It's a Department of Motor Vehicles bill dealing with state ID cards and driver's licenses, and actually the bill is now, in the Final Reading form, is broken down into those two issues basically. We've cleaned up issues dealing with paper forms and so on that are no longer in use, getting us into the twenty-first century here with our driver's licenses and ID cards. The amendment that I'm asking you to return the bill to Select File to adopt simply clarifies some requirements. We had combined driver's licenses and ID cards into a section. We want to put those back the way they were before. As you will recall, we've had a lot of debate on this on General File and Select File. I see there are a couple other amendments filed after mine, but this bill...or this amendment that I'm asking to adopt on...return and adopt simply harmonizes these issues, gets us our state ID cards back to where they were in sections back there in the back of the bill, Section...well, it's on page 33, I believe, but get this back to where it was. And it simply, and I hate to use the word, but it's a cleanup or harmonizing amendment that I'm asking you to adopt. So would ask for your vote to return it to Select File and adopt this specific amendment. Thank you.

SENATOR SCHIMEK: Thank you, Senator Baker. The motion is on the...to return the bill to Select File for a specific amendment. Senator Bourne, your light is next.

SENATOR BOURNE: Thank you, Mr. President and members. Maybe before the vote on returning it, if Senator Baker would yield to a question or two?

SENATOR SCHIMEK: Senator Baker, would you yield?

SENATOR BAKER: Yes, I would.

SENATOR BOURNE: Senator Baker, as you mentioned, we have had extensive debate but it's been some weeks since we discussed it last, and I just need a quick clarification if I could. I mentioned on one other rounds of debate that I had a constituent who is interested in this issue, and particularly she had
